Subject: Appeal for Denied Claim – Patient: Leila Al Mansouri, Claim ID: 20250905-L03

Dear Appeals Officer,

We are writing on behalf of our patient, Leila Al Mansouri, to appeal the denial of Claim ID 20250905-L03 for services rendered on August 15, 2025. The claim was denied citing ""Insufficient documentation / medical necessity."

After reviewing both the denial letter and the patient's clinical documentation, we respectfully request reconsideration for the following reasons:

Medical Necessity:

The ordered procedure — MRI of the left knee (CPT 73721) — was medically indicated due to persistent left knee pain, swelling, and limited mobility. Failure to perform this imaging would have delayed diagnosis and appropriate treatment, potentially worsening the patient's condition.

Supporting Documentation:

- Treating physician's detailed notes (dated August 15, 2025)
- Orthopaedic referral letter recommending MRI
- Radiology request form and pre-authorization approval

We kindly request prompt review and overturning of this denial.

Sincerely,

Dr. Aisha Al Qubaisi

Consultant Orthopaedic Surgeon
CityMed Hospital
